IMPORTANT NOTICE TO PERSONS ON MEDICARE

THIS INSURANCE DUPLICATES SOME MEDICARE BENEFITS

This is not Medicare Supplement Insurance

This insurance provides limited benefits, if you meet the policy conditions, for hospital or medical expenses that result from accidental injury. It does not pay your Medicare deductibles or coinsurance and is not a substitute for Medicare Supplement insurance.

This insurance duplicates Medicare benefits when it pays:

- hospital or medical expenses up to the maximum stated in the policy.

Medicare generally pays for most or all of these expenses.

Medicare pays extensive benefits for medically necessary services regardless of the reason you need them. These include:

- hospitalization
- physician services
- outpatient prescription drugs if you are enrolled in Medicare Part D
- other approved items and services

Before You Buy This Insurance

- Check the coverage in **all** health insurance policies you already have.
- For more information about Medicare and Medicare Supplement insurance, review the **Guide to Health Insurance for People with Medicare**, available from the insurance company.
- For help in understanding your health insurance, contact your state insurance department or state health insurance assistance program (SHIP).

Notice Concerning Coverage Limitations and Exclusions under the Ohio Life and Health Insurance Guaranty Association Act

Residents of Ohio who purchase life insurance, annuities or health insurance should know that the insurance companies licensed in this state to write these types of insurance are members of the Ohio Life and Health Insurance Guaranty Association. The purpose of this association is to assure that policyholders will be protected, within limits, in the unlikely event that a member insurer becomes financially unable to meet its obligations. If this should happen, the guaranty association will assess its other member insurance companies for the money to pay the claims of insured persons who live in this state and, in some cases, to keep coverage in force. The valuable extra protection provided by these insurers through the guaranty association is not unlimited, however. And, as noted in the box below, this protection is not a substitute for consumers' care in selecting companies that are well-managed and financially stable.

The Ohio Life and Health Insurance Guaranty Association may not provide coverage for this policy. If coverage is provided, it may be subject to substantial limitations or exclusions, and require continued residency in Ohio. You should not rely on coverage by the Ohio Life and Health Insurance Guaranty Association in selecting an insurance company or in selecting an insurance policy.

Coverage is *NOT* provided for your policy or any portion of it that is not guaranteed by the insurer or for which you have assumed the risk, such as a variable contract sold by prospectus. You should check with your insurance company representative to determine if you are only covered in part or not covered at all.

Insurance companies or their agents are required by law to give or send you this notice. *However, insurance companies and their agents are prohibited by law from using the existence of the guaranty association to induce you to purchase any kind of insurance policy.*

The state law that provides for this safety-net coverage is called the Ohio Life and Health Insurance Guaranty Association Act. On the back of this page is a brief summary of this law's coverages, exclusions and limits. This summary does not cover all provisions of the law nor does it in any way change anyone's rights or obligations under the act or the rights or obligations of the guaranty association.

COVERAGE

Generally, individuals will be protected by the life and health insurance guaranty association if they live in Ohio and hold a life or health insurance contract, annuity contract, unallocated annuity contract, or if they are insured under a group insurance contract, issued by a member insurer. The beneficiaries, payees or assignees of insured persons are protected as well, even if they live in another state.

EXCLUSIONS FROM COVERAGE

However, persons holding such policies are **not** protected by this association if:

- they are eligible for protection under the laws of another state (this may occur when the insolvent insurer was incorporated in another state whose guaranty association protects insureds who live outside that state);
- the insurer was not authorized to do business in this state;
- their policy was issued by a medical, health or dental care corporation, an HMO, a fraternal benefit society, a mutual protective association or similar plan in which the policyholder is subject to future assessments, or by an insurance exchange.

The association also does **not** provide coverage for:

- any policy or portion of a policy which is not guaranteed by the insurer or for which the individual has assumed the risk, such as a variable contract sold by prospectus;
- any policy of reinsurance (unless an assumption certificate was issued);
- interest rate yields that exceed an average rate;
- dividends;
- credits given in connection with the administration of a policy by a group contract holder;
- employers' plans to the extent they are self-funded (that is, not insured by an insurance company, even if an insurance company administers them).

LIMITS OF AMOUNT OF COVERAGE

The act also limits the amount the association is obligated to pay out: The association cannot pay more than what the insurance company would owe under a policy or contract. Also, for any one insured life, the association will pay a maximum of \$300,000 - no matter how many policies and contracts there were with the same company, even if they provided different types of coverages. Within this overall \$300,000 limit, the association will not pay more than \$100,000 in cash surrender values, \$100,000 in health insurance benefits, \$250,000 in present value of annuities, or \$300,000 in life insurance death benefits - again, no matter how many policies and contracts there were with the same company, and no matter how many different types of coverages.

Note to benefit plan trustees or other holders of unallocated annuities (GICs, DACs, etc.) covered by the act: For unallocated annuities that fund governmental retirement plans under §§401, 403(b) or 457 of the Internal Revenue Code, the limit is \$250,000 in present value of annuity benefits including net cash surrender and net cash withdrawal per participating individual. In no event shall the association be liable to spend more than \$300,000 in the aggregate per individual. For covered unallocated annuities that fund other plans, a special limit of \$1,000,000 applies to each contract holder, regardless of the number of contracts held with the same company or number of persons covered. In all cases, of course, the contract limits also apply.

14. **Home Health Care** services; and
15. **Extended Care Facility** services.

Excess Benefits. **Insured Persons** are reimbursed only for expenses resulting from **Covered Accident Medical Services** that are not payable by any other **Benefit Plan**. If an **Insured Person** is not covered by any other **Benefit Plan**, then the coverage under the **Policy** becomes the **Insured Person's** primary insurance coverage, subject to all the terms, conditions, and limitations of the **Policy**. When an **Insured Person** has coverage under another **Benefit**

Plan then the **Policy** will only reimburse the **Insured Person** for expenses resulting from **Covered Accident Medical Services** that are not covered by the primary plan, including: deductibles, co-pays, co-insurance, and expenses excluded by the primary plan but otherwise covered under the **Policy**. The **Policy** pays first when an **Insured Person** is covered by Medicaid. Benefits are not payable for charges that exceed the **Usual and Customary Charge**.

SECTION V – LIMITS OF LIABILITY

Combined Single Limit. The Combined Single Limit shown in the **Certificate Schedule of Benefits** is the maximum amount the **Company** will pay under any and all benefits of the **Policy** with respect to any one **Insured Person** arising out of any and all **Injuries** sustained by such **Insured Person** as the result of any one **Accident**. When the Combined Single Limit has been reached, no further benefits shall be payable under the **Policy**, with respect to that **Insured Person**, for or in connection with **Injury** sustained as a result of that one **Accident**.

Aggregate Limit. The Aggregate Limit shown in the **Certificate Schedule of Benefits** is the maximum amount the **Company** will pay for all benefits payable under the **Policy** with respect to all **Insured Persons** arising out of **Injury** sustained by one or more **Insured Person(s)** as the result of any one **Accident**.

If the amount of the Aggregate Limit is not enough to pay full benefits to each **Insured Person**, the **Company** will pay each **Insured Person** a reduced benefit based upon the proportion that the Aggregate Limit bears to the total benefits or the expected total benefits that would otherwise be paid. If the total benefits are unknown at the time, the **Company** will determine the total expected benefits for each person.

Limitation on Multiple Covered Losses. If an **Insured Person** suffers more than one **Covered Loss** under one benefit as a result of the same **Accident**, the **Company** will pay only up to the largest **Covered Loss** amount.

Limitation on Multiple Benefits. If an **Insured Person** can recover benefits under the Accidental Death Benefit, Accidental Dismemberment Benefit, or Paralysis Benefit as a result of the same **Accident**, the **Company** will pay only up to the highest applicable **Principal Sum**.

Non-Duplication of Workers' Compensation Benefits. No benefits shall be payable under the **Policy** for any loss for which the **Insured Person** claims or files under any workers' compensation, employers' liability, occupational disease or similar law. In the event a claim is payable under any workers' compensation, employers' liability, occupational disease or similar law arising out of the same or substantially the same **Accident** or **Injury**, the **Insured Person** must immediately reimburse the **Company** for all benefits paid in conjunction with that **Accident** or **Injury**.

Incarceration Limitation. Benefits provided to an **Insured Person** will cease while the **Insured Person** is incarcerated in a penal facility. The benefit will resume, as if the benefits had been paid, subject to all **Policy** terms and conditions, when the **Insured Person** is released from such facility.

Other Insurance with the Company. If the **Insured Person** incurs losses for which benefits are payable under the **Policy** and any one or more similar policies issued by the **Company** or one of its affiliates, the coverage under the **Policy** shall be in excess of such other insurance, and will not contribute to a loss with such other insurance. The condition does not apply to: (1) the Accident Medical Expense Benefit; or (2) other insurance which the **Insured Person** has procured to apply in excess of the coverage under the **Policy**.

SECTION VII - CLAIM PROVISIONS

Notice of Claim. Written notice of claim must be given to **Us** within twenty (20) days after an **Insured Person's Covered Loss**, or as soon thereafter as reasonably possible. Notice must be given by or on behalf of the claimant to **Us** at Great American Spirit Insurance Company, Trucking Division Claims, 301 East 4th Street, Cincinnati, OH 45202, 1-800-297-1971, with information sufficient to identify the **Insured Person**.

Claim Forms. **We** will send claim forms to the claimant upon receipt of a written notice of claim. If such forms are not sent within fifteen (15) days after the giving of notice, the claimant will be deemed to have met the proof of loss requirements upon submitting, within the time fixed in the **Policy** for filing proof of loss, written proof covering the occurrence, the character and the extent of the loss for which claim is made. The notice should include the **Insured Person's** name, the **Policyholder's** name and the **Policy** Number.

Proof of Loss. Written proof of loss must be furnished to **Us** within ninety (90) days after the date of the **Covered Loss**. If the loss is one for which the **Policy** requires continuing eligibility for periodic benefit payments, subsequent written proofs of eligibility and of the loss must be furnished at such intervals as **We** may reasonably require. Failure to furnish such proofs within the time required neither invalidates nor reduces any claim if it was not reasonably possible to give proof within such time, provided such proof is furnished as soon as reasonably possible and in no event, except in the absence of legal capacity of the claimant, later than one year from the time proof is otherwise required.

Payment of Claims. Upon receipt of due written proof of death, payment for loss of life of an **Insured Person** will be made to the **Insured Person's** designated beneficiary, or if there is no designated beneficiary on record with **Us**, the **Insured Person's** survivors in the following order: (1) the **Insured Person's Spouse**, (2) the **Insured Person's** child(ren), (3) the **Insured Person's** parents, (4) the **Insured Person's** brothers and sisters; (5) the **Insured Person's** estate.

Upon receipt of due written proof of loss, payments for all other losses will be made to (or on behalf of, if applicable) the **Insured Person** suffering the loss. If an **Insured Person** dies before all payments required under the **Policy** have been made, then any remaining amount still payable will be paid to his or her designated beneficiary, or if there is no designated beneficiary on record with **Us**, the **Insured Person's** survivors in the order listed above.

If any payee is a minor or is not competent to give a valid release for the payment, the payment will be made to the legal guardian of the payee's property. If the payee has no legal guardian for his or her property, a payment not exceeding \$1,000 may be made, at **Our** option, to any relative by blood or connection by marriage of the payee, who, in **Our** sole judgment, has assumed the custody and support of the minor or responsibility for the incompetent person's affairs.

We may pay benefits directly to any **Hospital** or person rendering covered services, unless the **Insured Person** requests otherwise in writing. Such request must be made no later than the time proof of loss is filed. Any payment **We** make in good faith fully discharges **Our** liability to the extent of the payment made.

Time of Payment of Claims. Benefits payable under the **Policy**, other than for loss for which the **Policy** provides for periodic payments, will be paid within sixty (60) days after **Our** receipt of due written proof of the loss. Subject to **Our** receipt of due written proof of loss, all accrued benefits for loss for which the **Policy** provides periodic payment will be paid at the expiration of each month during the continuance of the period for which **We** are liable and any balance remaining unpaid upon termination of liability will be paid immediately upon receipt of such proof.

Cooperation. In connection with the investigation of any claim made by or the continuing disability of an **Insured Person**, the **Insured Person** shall cooperate and, if requested to do so, provide the **Company** with a written or recorded statement concerning the circumstances of the claim made and the continuing disability and submit to an examination under oath.

Subrogation and Right of Recovery. To the extent **We** make a payment under the **Policy** and the **Insured Person** to whom or for whose benefit payment has been made has any right to recover from anyone liable for the **Covered Loss**, we may assume the rights of the **Insured Person** and/or his or her designated beneficiary. **We** will be reimbursed for any payments made to or on behalf of the **Insured Person** and/or the designated beneficiary, regardless of whether or not the **Insured Person** or person to whom payment has been made has been made whole. The **Insured Person** and/or his or her designated beneficiary will do everything necessary to transfer those rights to **Us**, will do nothing to prejudice those rights and agrees to assist us in preserving our subrogation and reimbursement rights.

Right to Recover Overpayments. In addition to any rights of recovery, reimbursement, or subrogation provided to the **Company** herein or which the **Company** may have by operation of law, when payments have been made by the **Company** with respect to a **Covered Loss** in an amount in excess of the maximum amount of payment necessary to satisfy an obligation under the terms of the **Policy**, the **Company** shall have the right to recover such excess payment from any one or more of the following: any person to whom such payments were made (e.g. medical providers, etc.), the **Insured Person**, any beneficiary, any insurance company or other organization(s) which received, or should have received, the payment.

Commutation of Losses. It is agreed that, at the **Company's** option, at any time later than two (2) years from the date of any **Accident** resulting in a claim under the **Policy**, the **Company** may advise the **Insured Person** of its desire to be released from liability with respect to any such claim. In that event, the **Company** will appoint an actuary or appraiser to investigate, determine and capitalize such claim, and the payment by the **Company** of the capitalized value of such claim will constitute a complete and final release of the **Company** with respect to such claim.

The **Company** shall have the right to develop a structured benefit distribution plan for the payment of any benefit(s) payable under the **Policy**, whether through an annuity or otherwise. **We** do not need the consent or agreement of the **Insured Person**, beneficiary or any other person to develop and implement such a plan. Upon the purchase of an annuity, the obligation to make any and all future payments under the **Policy** will be transferred to the company issuing the annuity. It is agreed that, in that event, the **Insured Person** or his or her designated beneficiary will rely solely on that company to satisfy any and all further obligations for such benefits under the **Policy** and no further demands or claims can or will be made against the **Company** for such benefits. If any person entitled to receive benefits is a minor or not competent to give a valid release, such benefits shall be paid to such person's legally appointed guardian or conservator.

Sunset. No claim by any **Insured Person** or beneficiary will be considered valid or collectible under the **Policy**, unless full details of such claim have been presented to the **Company** within three (3) years from the date of the **Accident** which gives rise to such claim.

Conditional Claim Payment. If an **Insured Person** suffers a **Covered Loss** as the result of an **Injury** for which, in the opinion of the **Company**, a third party may be liable, the **Company** will pay the amount of benefits otherwise payable under the **Policy**. However, if the **Insured Person** receives, collects, or recovers damages or other payment from the third party, the **Insured Person** agrees to refund to the **Company** the lesser of: (1) the amount actually paid by the **Company** for such **Covered Loss**, or (2) an amount equal to the sum actually received from the third party for such **Covered Loss**. If the **Insured Person** does not receive payment from the third party for such **Covered Loss**, the **Company** reserves the right to subrogate pursuant to the Subrogation provision of the **Policy**.

The above amount shall be paid to the **Company** at the time such third party's liability is determined and satisfied, whether such damages or liability has been determined by settlement, judgment, arbitration or otherwise. This provision shall not apply where prohibited by law.

SECTION VIII - GENERAL PROVISIONS

Entire Contract; Changes. The **Policy**, together with any schedules, riders, endorsements, amendments, applications, and enrollment forms, if any, make up the entire contract between the **Policyholder** and **Us**. In the absence of fraud, all statements made by the **Policyholder** or any **Insured Person** will be considered representations and not warranties. No written statement made by an **Insured Person** will be used in any contest, unless a copy of the statement is furnished to the **Insured Person** or his or her beneficiary or personal representative.

No change in the **Policy** will be valid until approved by an officer of the **Company**. Such approval must be noted on or attached to the **Policy** in writing. No agent may change the **Policy** or waive any of its provisions.

Incontestability. The validity of the **Policy** will not be contested after it has been in force for two (2) years from the **Policy** Effective Date, except as to nonpayment of premiums.

Beneficiary Designation and Change. The **Insured Person's** designated beneficiary(ies) is (are) the person(s) so named by the **Insured Person** and on signed record with the **Policyholder** and the **Company**.

A legally competent **Insured Person** over the age of majority may change his or her beneficiary designation at any time, unless an irrevocable designation has been made. The change may be executed, without the consent of the designated beneficiary(ies), by providing **Us** or, if agreed upon in advance by **Us**, the **Policyholder** and the **Company's** authorized agent, with a written request for change. When the request is received, whether the **Insured Person** is then living or not, the change of beneficiary will relate back to and take effect as of the date of execution of the written request, but will not apply to or prejudice **Us** as respects any payment which may have been made prior to **Our** receipt of the request.

Physical Examination and Autopsy. **We** have the right, at **Our** own expense, to examine the **Insured Person**, when and as often as may be reasonably required during the pendency of a claim. In the case of a disability claim, **We** also have the right to require the **Insured Person**, at **Our** own expense, to submit to an **Occupational Assessment** and **Functional Capacity Examination**. **We** may also require an autopsy of the remains of any **Insured Person** where it is not prohibited by law.

Legal Actions. No legal action for a claim can be brought against **Us** until sixty (60) days after receipt of proof of loss. No legal action for a claim can be brought against **Us** more than three (3) years after the time for giving proof of loss.

Noncompliance With Policy Requirements. No express waiver by **Us** of any requirement(s) of the **Policy** will constitute a continuing waiver of such requirement(s). Any failure by **Us** to insist upon compliance with any **Policy** provision(s) will not operate as a waiver or amendment of that provision.

Conformity With State Statutes. Any provision of the **Policy** which, on its effective date, is in conflict with the law of the jurisdiction in which the **Policy** was delivered, is hereby amended to conform to the minimum requirements of such law.

Clerical Error. Clerical error, whether by the **Policyholder**, the **Insured Person** or **Us** in keeping records pertaining to the **Policy**, will not:

1. Invalidate coverage otherwise validly in effect; or
2. Continue coverage otherwise validly terminated.

Assignment. The **Policy** is non-assignable.

Offset. The **Company** will have, and may exercise at any time, the right to offset any balance or balances, whether on account of premiums or otherwise, due from the **Policyholder** to the **Company** against any balance or balances, whether on account of losses or otherwise, due from the **Company** to the **Policyholder**.

Plan and Exposure Changes. The **Policyholder** must notify the **Company** of any subsidiary or affiliated company that is to be covered under the **Policy**. If such notice is received by the **Company** within thirty-one (31) days of the acquisition of such subsidiary or affiliated company, the Eligible Persons of the newly acquired subsidiary or affiliated company will be insured under the **Policy** as of the effective date of the acquisition. The **Company** has the right to decline coverage or adjust premium based on the change in exposure.

If such notice is not provided within thirty-one (31) days, or if the **Policyholder** does not provide the **Company** with the underwriting information necessary for the **Company** to determine the amount of additional premium required, if any, within such time, the coverage for any Eligible Persons of the subsidiary, affiliate, or other entity will be considered an **Insured Person** until the date such notice is provided.
